Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 – 3, 5 – 11, 13 – 16, drawn to database, classified in class 707, subclass 1.
- II. Claims 17 – 37, drawn to query processing, classified in class 707, subclass 3.
- III. Claims 38 – 51, drawn to query augmenting and refining, classified in class 707, subclass 5.

Inventions **I, II, and III** are related as combination and subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as database by “combining each concatenating field” and further “indexing...to produce document statistics” (This embodiment is also shown in applicant’s specification; Fig. 3, Page 6, lines 1 – 3, and 6—20, Page 8, lines 22 - 24); invention II has separate utility such as query processing by “determining a field specific frequency ... for each query term” and further “weighting each field specific frequency...” (This embodiment is also shown in applicant’s specification; Fig. 4, Page 8, lines 23 – 25); invention III has separate utility such as query augmenting and refining by “computing a field-weighted term frequency...” (This embodiment is also shown in applicant’s specification; Fig. 6). Each of the three inventions does not require the particulars of the remaining inventions.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement, to be complete, must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).

This office action sets a one-month period for reply (restriction requirement), the applicant may obtain a two-month extension of time under 37 CFR 1.136(a) before being subject to a reduction of patent term adjustment under 154(b)(2)(C)(ii) and CFR 1.704(b).
